The 5th Annual
SEOUL Climate-Energy Conference 2018

EN KR

Invitation

Greetings from the 5th Seoul Climate-Energy Conference.

On behalf of the KAIST Graduate School of Green Growth and the Coalition for Our Common Future, we cordially invite you to the 5th Seoul Climate-Energy Conference (Seoul CEC) at Shilla Hotel, Seoul on November 16, 2018. Under the main theme of "Hothouse Earth? How to Mobilize the Change for Our Sustainable Future", we will discuss 'Trajectories of Earth Climate System: Where Are We Heading and What Needs to Be Done?', 'How to Finance the Change We Need to Have', 'Korean Strategy of North-East Asia Super Grid', 'Blockchain: Carbon Reduction and Fine Dust', 'Voices from the Young'.

In particular, the 5th Seoul CEC will have special session to discuss the outcome of the Green Growth Summit (P4G) in Copenhagen and future tasks of the current Moon Jae-in administration. Since its launch in 2014, Seoul CEC has become a unique platform which takes interdisciplinary approaches explicitly focusing on climate change and energy issues covering policy, business, technology, and international cooperation. Seoul CEC has delivered key outcomes of the conference to leaders of the global community. We do believe that the 5th Seoul Climate-Energy Conference will mark as another milestone for our sustainable future.

We look forward to seeing you.

Conference Co-Chairs

In, Younghwan
Head, KAIST Graduate School of Green Growth

Kim, Sang-Hyup
Visiting Professor, KAIST Graduate School of Green Growth
Chairman, Coalition for Our Common Future
